SLIM 1011   Aseptic wireless keyboard

Wireless keyboard with numeric pad & touchpad

The SLIM 1011 is a wireless version of SLIM 811. It combines autonomy, hygiene and comfort.
Smooth surface : easy to clean with all chemical agents used in hospitals or clean rooms.

SPECIFICATIONS

- 8-metre range. The communications protocol is Bluetooth with a proprietary dongle.
- Its battery lasts for 20 hours of constant use. When the battery is flat, it connects to the PC (or mains) and recharges while still in use.
- It has a standby time of over 30 days. It goes into standby 5 minutes after the last keystroke and reactivates with one gesture.
- It takes only 4 hours to charge using the charger or 8 hours when connected to the computer via the USB port.
- **Although extra-flat (14mm), it has an access hatch to replace its Lithium battery. So, its maintenance is simple and its life optimized.**
- Lockin function : locks the keyboard during cleaning
- Taptop function provides a fluent and convenient typing
- Work with gloves
- Tempered glass resistant to all chemical agents
- Typing without pressure "zero Newton technology"

TACTYS is a specialist of glass tactile keyboards since 2004.
